## Message of the Managing Director

I am pleased to introduce Basatin Landscaping LLC. We are Abu Dhabi's exclusive landscaping services and water management solutions provider.

From its inception, Basatin believes that our values are based on our ability to build long-term relationships with our clientele. These relationships begin with identifying and understanding our clients' needs and using that understanding to formulate and execute sustainable solutions that will enhance their landscaping and gardens. This approach relies on knowledge not only of landscaping needs but also of the clients themselves, creating a strong foundation for a lasting partnership.

**RAMI TARAZI**  
Managing Director

## Commitment

**Basatin is founded on three commitments:**

### ENVIRONMENT

Guided by Abu Dhabi's Vision 2030, we are committed to providing sustainable solutions that enhance the environment and protect it from any potential adverse effects related to our work.

We take a proactive approach to all our projects, with specific emphasis on improving the management and conservation of water, a precious resource in this region.

### WORKFORCE

We consider our site technicians and staff as our most valuable assets. Therefore, we coach and mentor each member of Basatin's family to ensure that they truly represent Basatin's values. We have a highly effective training and mentoring program for our staff that allows us to identify areas where they can improve, and provides us with the opportunity to reward the achievements of each team member.

### COMMUNITY

We understand that our daily activities are intertwined with the livelihood of the residents of the communities that we serve. Our site technicians and staff understand, respect, and comply with all local traditions so that our work will have the fewest possible impacts on the daily life of the residents.

We at Basatin, are meticulous in researching and selecting alternative horticultural methods, non-toxic pesticides, and organic fertilizers when required to respect the integrity of the communities that we serve.

Sowwah Square, Al Maryah Island

## Value Proposition

Whether it is a seasonal rotation of color, a retrofitting of an irrigation system, or a comprehensive landscape redesign, our environmental friendly and cost-effective solutions will guarantee that your landscape reaches its full potential.

With our personalized service, we cover the entire value chain in the landscaping business. Whether it is our in-house landscape designers or our team on site, we have the ability and the resources to design and execute any enhancement you desire.

General Manager of Serco

## Know-How

Basatin's know-how begins with an aesthetic that is designed to suit local environmental conditions with water wise plants. It is balanced with a smart irrigation system and complemented with the minimal use of pesticides and energy saving tools.
